

Installation Guide

1. Install the Addon

Download the addon from the **#download** channel.

Copy the **pigaddon** folder to:

retail\Interface\AddOns

2. Launch World of Warcraft

Start World of Warcraft and select your character.

Once you enter the game, you should see the addon panel.

At this stage, the addon is installed but not yet activated.

3. Log In

Run **unlock.exe**.

Enter your license key in the input box.

Click the **Login** button (the large button on the left).

Wait for the login process to complete successfully.

4. Start the Rotation

Return to the game.

Open the addon panel and click the **Start** button.

The rotation will begin running.

5. Supported Specializations

The addon currently supports all **Healer specializations** and a limited number of **DPS specializations**, including:

- Retribution Paladin
- Beast Mastery Hunter

For unsupported DPS specializations, the addon will automatically use the built-in one-button DPS system.

6. Additional Information

For more details, please refer to the Help section available in the addon panel.
